Summary

With a background in engineering and over 7 years of experience as an SAP FIORI/UI5 Consultant, I have extensive experience in end-to-end full lifecycle implementation in SAP ECC & S/4 HANA landscape for energy (hydrocarbon), retail, and FMCG domains. My area of expertise involves designing, building and customizing SAP Cloud Platform applications for enterprise to meet the specific business needs of my clients by leveraging SAP BTP and SAP BAS full-stack environment.

I have designed various Fiori/UI5 Apps, and UX using client focus group with tools like SAP's Build, and Figma, and have experience with SAP Mobile Development using SMP SDK for iOS, Cordova, and Kapsel plugins. I constantly learn and strive to stay proficient in the latest SAP Digital Enterprise Technologies through different SAP learning platform.
